

SPECIAL DAYS WITH CIF ITALIA

Thanks to CIF ITALIA, every year my family and I host people from various areas – everything to learn and deepen our English, and meet different cultures.

In September 2012 we hosted an Israeli woman, her name is Ofra. She is a very nice person!

In the beginning I was shy, but with time I started speaking more and later we had a true and deep connection. We talked about work, family, free time and also about the particular history of Israel.

Several days later, I went out with Ofra to show her the city: especially the second largest ancient Roman amphitheater, but only for a short time because she was busy with the programme.

Despite her hard work she could always smile and bring harmony with her beautiful personality.

In English I'm not very good, but we managed to understand each other.

It wasn't easy to speak English, but she helped me a lot.

I would like to relive those moments again in the future!

Hugs,

Giuseppina Longobardi

P.S. Ofra is the one embracing me, next to her there's Mohammed, then my father Peppe, my mom Laura and my sister Carolina.
